AEDIFICARE · EDITION 08

WAITING FOR THE TIE-IN

The chips are bought.
Everything they wait for is not.

15 OCT 2026 · JESSE JAMES

R = COS(Kθ) · SEED 20261015

MICROSOFT · NOVEMBER 2025

A BUNCH OF CHIPS SITTING IN INVENTORY THAT I CAN'T PLUG IN.

Satya Nadella. His CFO: short on space and power "for many quarters."

TEXAS · LARGE LOADS ASKING TO CONNECT

474 GIGAWATTS.

The grid's record peak is 91. Nine in ten requests are data centres.

ERCOT TO TEXAS PUC, AUG 2026 · PEAK, JUL 2026

5+ YEARS.

Median wait for projects built in 2025. 2,061 GW still in line. Virginia: up to seven.

SOLD OUT TO 2031.

Backlogs: GE Vernova 116 GW.
Siemens 69. Mitsubishi 35.
None of them Chinese.

LARGE POWER TRANSFORMER · LEAD TIME

128 WEEKS.

144 for a step-up unit. One US company makes the steel inside them.

WITHOUT THIS, NOTHING.

~~LARGE TRANSFORMERS~~	DATA-CENTRE SHELL · IMPOSSIBLE
GRID TIE-IN · IMPOSSIBLE	FIRM GENERATION · IMPOSSIBLE
HIGH-VOLTAGE LINES · IMPOSSIBLE	AI CHIPS · IMPOSSIBLE
CREDIT · IMPOSSIBLE	ELECTRICIANS

Take out the transformer and six pieces become impossible. Try it live.

ABILENE, TEXAS · AN HOUR

$35

$20

Data-centre electrician against homebuilder electrician. The houses now take two months longer.

US CONSTRUCTION SPENDING · AUG 2026

+73%

DATA CENTRES.

-3.5%

SINGLE-FAMILY HOMES.

US CENSUS BUREAU, OCT 2026

34 GW
OF CHIPS, UNPLUGGED.

Chips delivered against chips powered. Peak gap in 2029. The queue never clears.

ON-SITE POWER PLANTS AT US DATA CENTRES

99 GW ANNOUNCED.

2 GW RUNNING.

EIGHT LARGEST HYPERSCALERS · FREE CASH FLOW · 2028

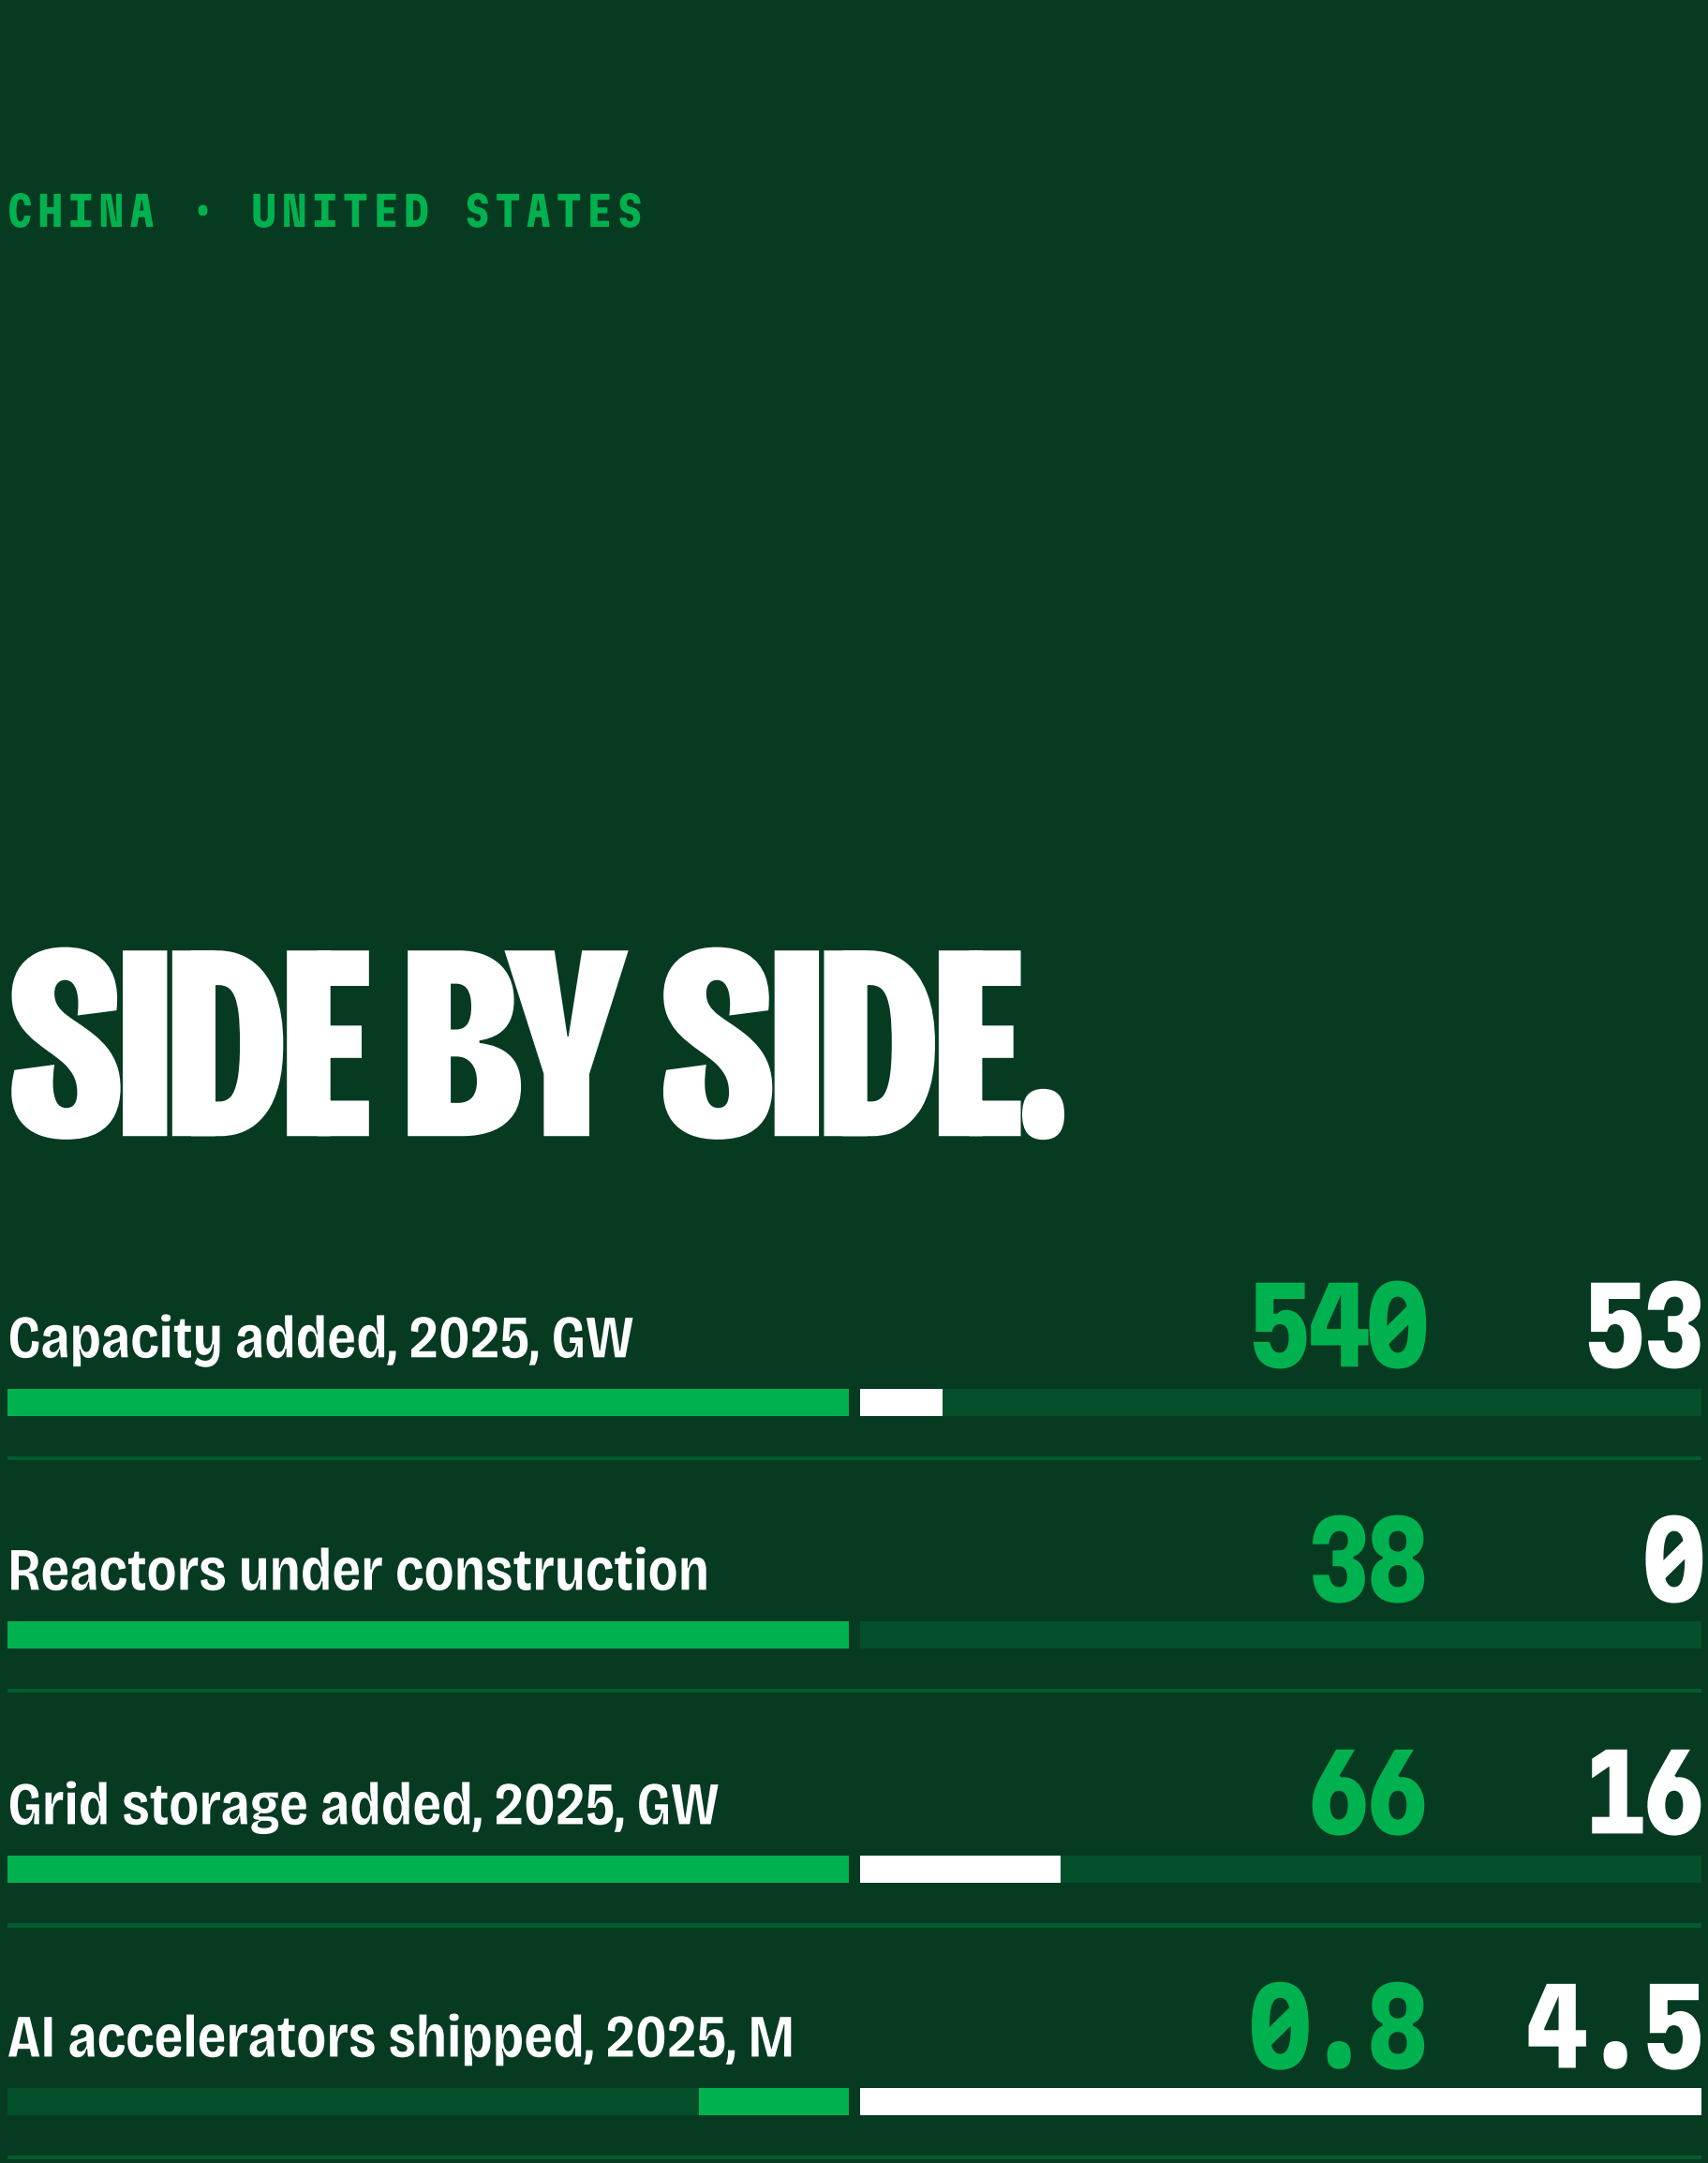

−$186B

From +$180B in 2025. Alphabet just had its first negative quarter since it listed in 2004.

BANK OF AMERICA, AUG 2026 · ALPHABET Q2 2026

CHINA · UNITED STATES

SIDE BY SIDE.

NEA · EIA · WNA · CNESA · EPOCH AI

UP TO 80%

Of newly built Chinese computing centres sat unused in 2025. Huawei shipped 0.8 million AI chips to Nvidia's 4.5 million.

BOTH SIDES ARE PAYING.

THREE CLAIMS.

FALSE

The turbines come from China.

None delivered. The backlog is in South Carolina, Berlin and Takasago.

PARTLY

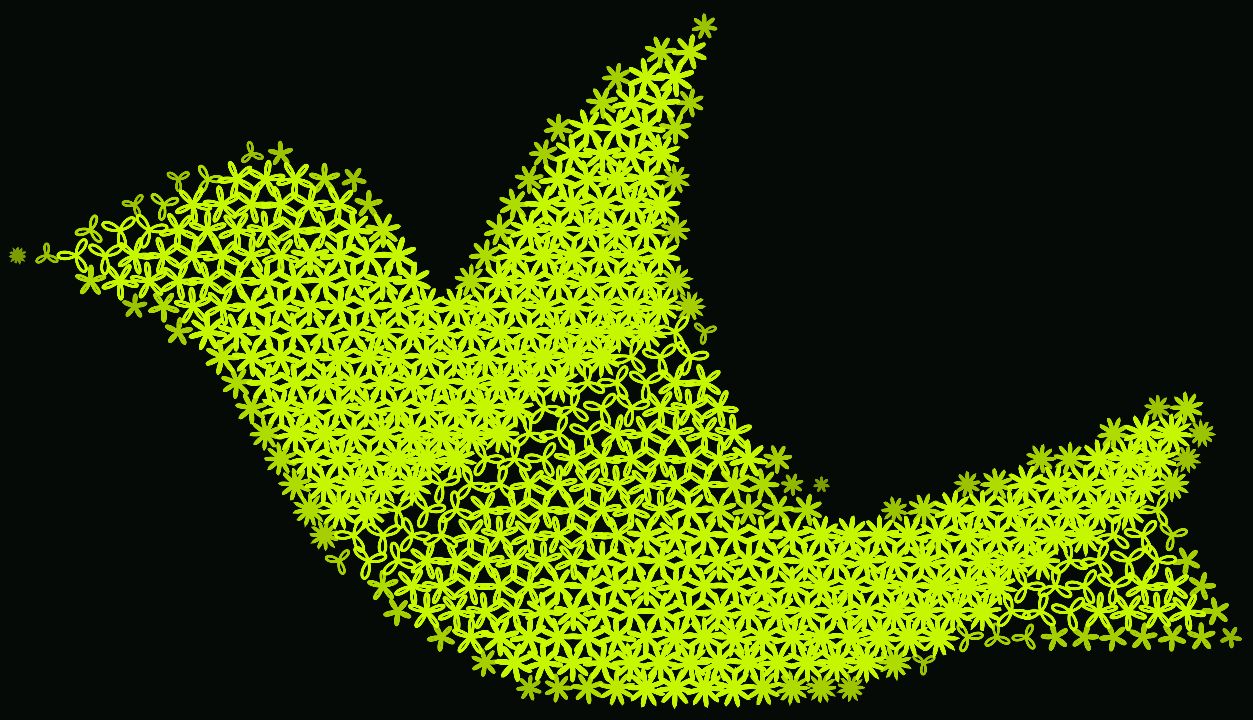

A phone every 0.7 seconds, no humans.

Xiaomi says one every six, 81% automated, with a crew.

TRUE

The chips are sitting in boxes.

Microsoft said so on the record.

THE CHIPS ARE THE FAST PART.
